

Technical Bulletin 1 (LONG LIFE FILTERS)

Today's vehicles are getting more and more reliable than ever. Due to this fact they need less maintenance than older vehicles. The planned service intervals are constantly increasing, providing better economy to the driver.

Motor oil companies, have developed high spec synthetic long life motor oils, which can extend the oil change to 30.000km and more.

ALCO Filters, always following the latest steps in filtration technology, is now offering a wide range of it's ECO filters manufactured with the new long life media. Alco's long life filters, offer better efficiency than traditional filters and can extend your vehicle's oil change up to 30.000km* or 2 years* (whichever comes first).

Endurance of filter

**To extend the oil change interval up to 30.000km or 2 years (whichever comes first), a high spec long life synthetic motor oil must be used in combination with our long life filter. 30.000km/2years is the max lifetime of the filter. Shorter interval might be required depending on driving style. Do not exceed the oil change interval that is recommended by your vehicle manufacturer.*
